Dear Applicant

## **NETWORK <sup>cb</sup>23 COORDINATOR**

Thank you for expressing an interest in our advertised post for a Coordinator to facilitate the work of our network. We hope that this application pack will provide you with both the information and the inspiration to want to find out more about us and our vision.

Founded in 2009, Network <sup>cb</sup>23 consists of 15 diverse schools located to the south-west of Cambridge. We are an equal partnership of strong and diverse schools committed to working collaboratively for the benefit of our pupils, staff and governors.

The Head Teachers of Network <sup>cb</sup>23 meet each half term to review and plan a range of joint activities; these include a range of established events including curriculum groups, meetings for Chairs of Governors, shared training and support. In addition, each year, we have developed new opportunities to enrich the experience of our pupils and to offer staff additional opportunities to work with other Network <sup>cb</sup>23 colleagues. These events have included a careers conferences, master classes in a range of curriculum areas, a network orchestra and shared training opportunities. We continue to explore ways of deepening our partnerships with each other amidst a rapidly changing educational climate.

The role of the Network <sup>cb</sup>23 Coordinator is to ensure good communication between all stakeholder groups, to organise projects that enrich Network <sup>cb</sup>23 and to identify funding and learning opportunities. This is an excellent opportunity for someone who is well-organised, enthusiastic and proactive to join us.
